Challenge Problem #5
Birgir Gauti Stefánsson

1. Open the „problem5.R" file using RStudio to access the code.
2. Import the data „2015.csv" to RStudio.
3. Run all lines from top to bottom.
4. You will have to change the file path on lines 17 and 18.
5. Open „institution.csv" and „teams.csv" for the separated files.
